PROFESSIONAL SUMMARY

AI-driven EdTech Specialist and Business Analyst with 1+ year of professional experience in instructional design, content QA, and academic technology. Currently serving as Subject Matter Expert at Edwisely — designing interactive simulations, managing CMS/LMS workflows, and delivering zero-defect assessment content. Proficient in AI tools (Claude Code, OpenAI Codex, Cursor) for workflow automation and intelligent solution design. Strong background in requirement gathering, stakeholder communication, and cross-functional collaboration, with prior experience mentoring 200+ students and managing 5 concurrent operational roles at Ganpat University.

CORE SKILLS & COMPETENCIES

Business Analysis & Consulting: Requirement Gathering, Process Optimization, Stakeholder Communication, Data Interpretation, Problem Solving
EdTech & Instructional Design: Learning Experience Design (LXD), Simulation Development, Curriculum Design, Content Validation & QA, CMS/LMS/ERP Systems

AI & Tools: Claude Code, OpenAI Codex, Cursor, Antigravity, Git/GitHub, Postman, MS Excel, Google Sheets

Technical (Supportive): Python, JavaScript, React.js, HTML5, CSS3, SQL, Django — Agile/Scrum, SDLC, DBMS, API Testing, Code Review

PROFESSIONAL EXPERIENCE

Subject Matter Expert (SME) — EdTech & Computer Science

January 2026 – Present

Edwisely, India

- Designed interactive academic simulations and structured micro-learning modules using CMS/LMS platforms, achieving zero-defect delivery across 500+ assessment items.
- Performed end-to-end QA and logical validation of Assessment Questions across Python, DBMS, SDLC, and Web Dev domains, ensuring domain accuracy and industry alignment.
- Leveraged AI tools (Claude Code, OpenAI Codex, Cursor) to automate content workflows and prototype simulation logic — improving output efficiency by ~40%.
- Collaborated with product, design, and academic teams for requirement gathering, content optimization, and curriculum framework development.

Assistant Professor — Computer Science

July 2024 – June 2025

Ganpat University, Gandhinagar, Gujarat, India

- Mentored 200+ students with academic and career guidance; supervised 10+ research projects including 2 national-level Shodh 2024 entries; published peer-reviewed research paper.
- Managed 5 concurrent roles — Proctor, T&P Coordinator, Exam Coordinator, Result Processor, Paper Setter — demonstrating operational excellence and stakeholder management.
- Trained 20+ students under Skill India program; organized Coding Battle, Paper Presentations, and Quiz events to foster technical culture and engagement.

Frontend Developer

June 2023 – December 2023

Annova Solutions, Indore, Madhya Pradesh, India

- Led React.js UI development achieving 20% improvement in responsiveness; built reusable component library reducing development time by 15%.
- Conducted API testing via Postman, reducing QA bug reports by 25%; contributed to database migration with zero downtime.

Web Developer Intern (Python)

January 2023 – May 2023

IndVibe Infotech Pvt Ltd, Indore, Madhya Pradesh, India

- Built Python-based user authentication system increasing platform security by 30%; enhanced UI/UX contributing to 15% increase in user engagement.

EDUCATION

Master of Computer Applications (MCA)

August 2021 – May 2023

Medi-Caps University, Indore, Madhya Pradesh, India

Bachelor of Computer Applications (BCA)

August 2017 – August 2020

Swami Vivekananda Institute of Technology (S.V.I.T), Balaghat, Madhya Pradesh, India

KEY ACHIEVEMENTS & ADDITIONAL INFORMATION

Certifications: Cloud Application Foundation Essentials | AWS Cloud Practitioner (In Progress)

AI Proficiency: Claude Code, OpenAI Codex, Cursor, Antigravity — actively used in professional workflow

Languages: English (Full Professional) | Hindi (Native / Bilingual)

Soft Skills: Communication, Team Collaboration, Stakeholder Management, Attention to Detail, Presentation, Problem Solving

Achievements: Published research paper (Online Book Store System); Mentored Shodh 2024 research competition; Zero-defect content delivery at Edwisely across 500+ QA items
